

4K Wireless USB-C Transmitter

P/N: W M T - C 2 6

Product Requirements

WMT-C26 is a brand new 4K wireless dongle that work with USB-C sources including laptop, smartphone, tablet etc, it transmits not only A/V but also USB data wirelessly between the source and base unit; different with other dongles in the market, it provides additional 2 small buttons for more features and capabilities.

Description

1. Interface/button description:

- ① USB-C
- ② small button
- ③ LED indicator
- ④ small button
- ⑤ big button

2. The technical spec

Specification	
Video Input Connectors	1×USB type C
Video Input Resolution	3840x2160@30Hz, 2540x1440@60Hz, 1920x1080@60Hz, 1280x720@60Hz
Format Compliance	Compliant with DP 1.2 for 1.62Gbps, 2.7Gbps ,5.4Gbps Compliant with DP 1.2 and eDP1.4 Support DP 1, 2, 4 lanes Over type C
HDCP	HDCP1.4
USB Interface	USB type C x1
Audio Input	DP, 2CH PCM

Control connector	USB HID (Touch back)
Video Playback Frame Rate	20-60 FPS
Latency	1080P@60: 80-120ms, 4K@30: 130-170ms
Wireless protocol	WIFI IEEE 802.11 a/g/n/ac/ax
Operating Frequency	2.4 GHz & 5 GHz
WIFI Antenna	MIMO 2x2
Data rate in wireless	Up to 1200Mbps
Distance	Typical: 35m without obstacle
Dimension (W x D x H)	65mm x 183mm x 13mm
Weight	80 g
Operating Temperature	0° C to +45° C
Storage Temperature	-20° C to +60° C
Relative humidity	20%~ 85% RH (no condensation)
DC Power	USB Internal 5V
Maximum output power	2.4G 14dbm / 5G 11dbm
Power consumption	3.5W(MAX)

3. Feature description:

- Wireless sharing from USB-C source, including laptop, smartphone, tablet etc.
- Wireless content input resolution up to 4K@30hz.
- Plug-n-play, no software installation for content sharing, easy to use.
- Press button for sharing and stop sharing
- Long press to get full screen view
- Left small button for image freezing
- Right small button for customizable function, like switching camera, switching USB hub, display content sharing.
