

Description

This unit is used for loading of bare PCBs to the production line.

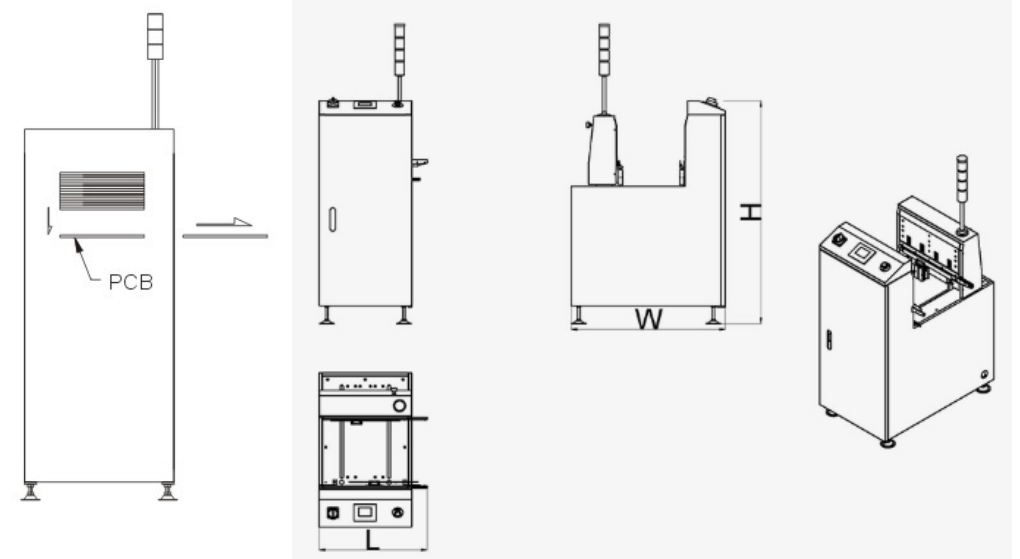

Features

- 200 board stack capability with 0.4 mm board thickness
- Variable speed in/speed out and PLC control System
- Board unload or pass-through mode
- Variable thickness adjust dial and Slide-width adjust
- SMC Cylinder and Fixed front rail
- Adjustable transfer height
- Interface mounting brackets
- SMEMA compatible

Specifications

Schematic&Structure

Model	Dimension (L*W*H.MM)	PCB size(MM)	Weight(KG)	PCB storage
SBU330	550*650*1200	50*50-330*330	150KG	200PCS/0.4mm
SBU460	550*890*1200	50*50-460*460	200KG	200PCS/0.4mm

We design and
manufacture
automatic machine for
the PCBA/SMT and
Thru-hole industries
in Shenzhen China.

We help companies
looking for low-cost
equipment with smart,
ROI-driven assembly
equipment solutions.
Welcome to contact
us for more 3D
machine models.
